MICROSOFT DYNAMICS 365 INTEGRATION SOLUTIONS

WE MAKE INTEGRATION WITH DYNAMICS 365 EASY

*We can help you integrate your **Microsoft Dynamics 365** system with key third party systems, to seamlessly automate your workflows.*

REAL-TIME DYNAMICS 365 INTEGRATION

Experience automatic, real-time integration of your Dynamics 365 data with key enterprise applications such as SCM, FSM, ITSM, ERP and CRM systems.

INCREASE VISIBILITY WITH AUTOMATION

Make your data even more visible and accessible by easily automating data exchange between your Dynamics 365 processes and multiple systems.

BUILT-IN DYNAMICS CONNECTOR

Leverage the Dynamics CRM's REST API with Magic xpi's out-of-the-box Dynamics CRM connector to create, query, update, assign, change and delete entities.

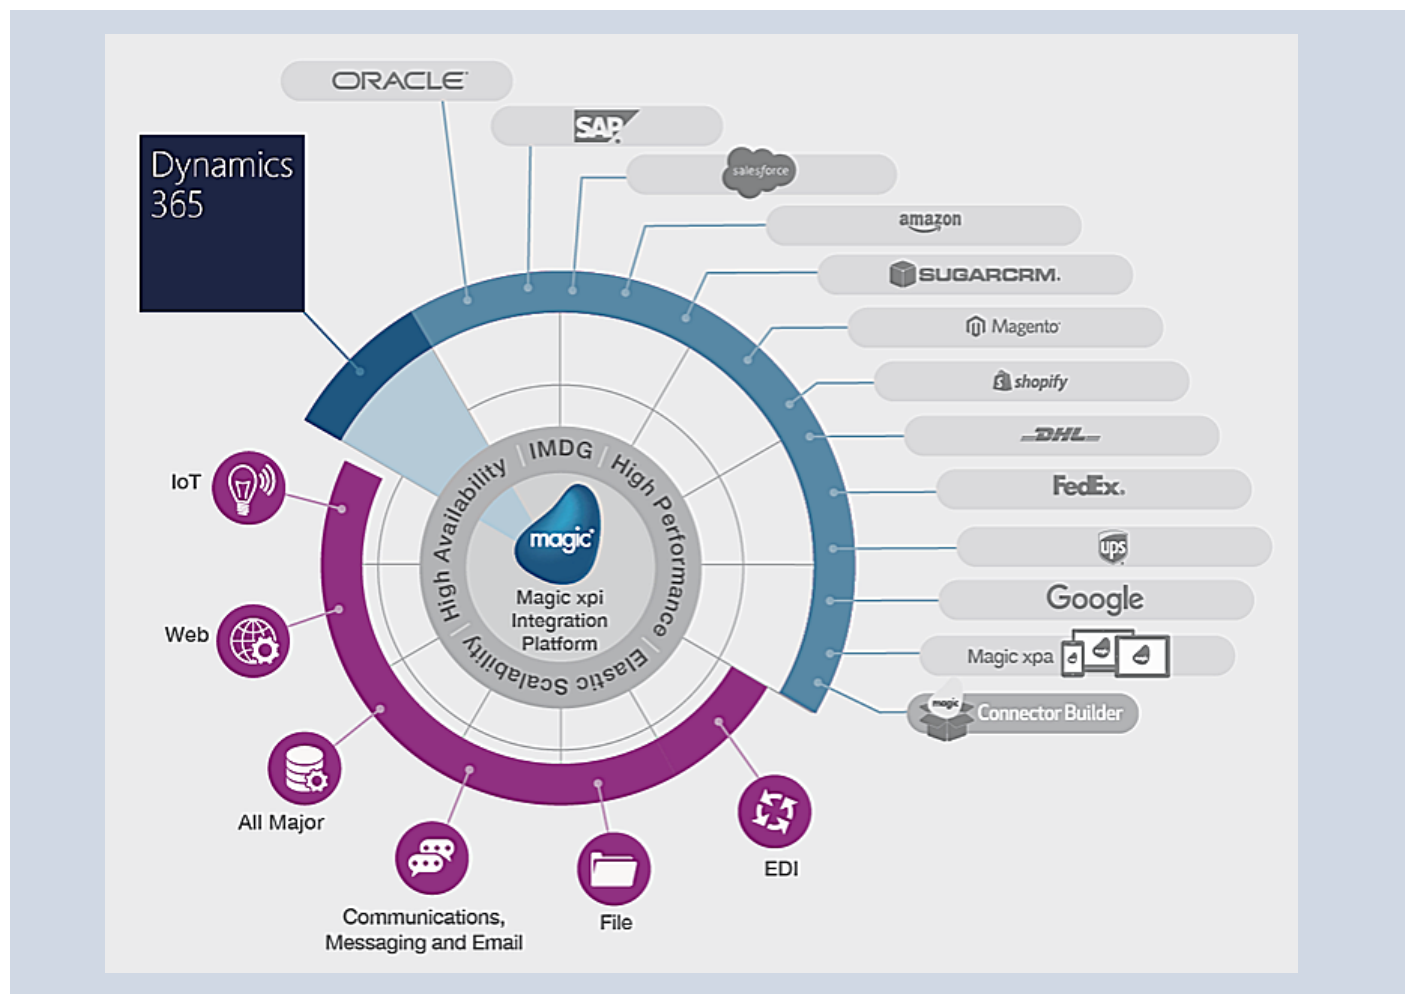

MAGIC® XPI FOR MICROSOFT DYNAMICS 365

SIMPLE, OPTIMIZED INTEGRATION

Magic xpi Integration Platform enables you to extend the value of your applications by integrating with existing applications and other business systems.

Synchronize data and automate processes across systems quickly and easily with Magic's **code-free, visual, drag-and-drop** approach.

Whether your systems are **on-premise** or in the **cloud**, Magic enables you to complete business-critical integration projects quickly, enjoy the ease of maintenance, and benefit from a high return on investment (ROI).

Magic code-free integration platform can connect numerous Microsoft systems to an endless combination of endpoints

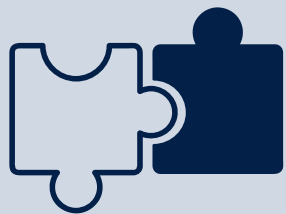

MULTIPLE WAYS TO GET AHEAD

TRANSFORM YOUR IT INTO A STRATEGIC ASSET WITH MAGIC INTEGRATION

There are market shifts in the Microsoft Dynamics world with 365 that are radically changing consumer expectations. The role of technology has never been more important for businesses to stay competitive and to enhance your customers' experience.

Your Dynamics 365 environment can easily integrate with other systems, software and apps from all major vendors to optimize data communications and transform your IT into a strategic asset.

USE MAGIC XPI INTEGRATION PLATFORM TO:

Improve the customer experience by connecting all your Microsoft Dynamics applications with shipping, social media, a PLM System and more.

Connect Microsoft Dynamics 365 to Cloud, Hybrid and On-Premise applications using the same tool to accomplish real-time triggered actions across systems.

Migrate, standardize, and consolidate master data such as account names, locations and product catalogues with realtime synchronization with other systems.

Manage data deduplication, cleanup and data appends. Synchronize across all Microsoft 365 applications and third party applications.

FRIENDLY, RIGHT-SIZED INTEGRATION

MAGIC MAKES IT SIMPLE TO INTEGRATE WHAT YOU WANT, THE WAY YOU WANT:

- **Complete Microsoft Dynamics 365** integration provided across all resources including leads, accounts, contacts, households, opportunities, products, partners and more.
- **Full support** of real-time and bulk operations reduces Mean Time To Repair (MTTR).
- **100+ pre-built application adapters** and technology resources to connect tens of thousands of applications.
- **Magic xpi Studio** with code-free, drag and drop environment and comprehensive visual data mapper.
- **Multi-platform (Windows, Linux, AIX, Solaris, IBM i) Magic xpi Server** with real-time event triggers, powerful process automation scheduler, and automated handling of exceptions and errors.
- **Magic Monitor** with extended remote monitoring and management capabilities for IT and business users.
- **Enterprise-grade** including In-Memory Computing, built-in clustering and failover, powerful security and encryption tools, and SOA compliant
- **Hybrid platform** supports any combination of cloud & on-premise integrations

Align your organization's departments by integrating your Microsoft Dynamics 365 with other key systems.

SIMPLE INTEGRATION WITH MAGIC XPI

BENEFITS OF MAGIC XPI INTEGRATION

Magic has everything you need to make sure your business processes run the way your users want.

IT, LoB and Management stakeholders benefit from:

- Fast time-to-market.
- Easy and cost-effective maintenance.
- One skill set for all integration needs.
- Real-time data for accurate information.
- Flexible connectivity to different databases, file types and data formats.
- Robust In-Memory architecture supports the most demanding applications.
- Business process automation for less than the cost of ETL.

MAGIC XPI SUCCESS STORIES

MAGIC XPI SUCCESS STORIES

See how companies such as **ASSA ABLOY** (Switzerland), **First Capital Realty** (Canada), and **Banco Intermedium** (Brazil), improved efficiency by adopting Magic xpi.

Click [here](#) to request the Magic xpi Success stories.

A Magic xpi proved to be an ideal integration solution to complete the project quickly and easily. It's code-free, drag-and-drop approach and prebuilt MS Dynamics connector reduced development time and enabled us to easily connect the data and business processes the way we wanted.

Erwin Fuchs, Business Development Manager, Assas Abloy (Schweiz) AG
